

I am a concerned citizen of Albuquerque, NM and local listener of K-LOVE radio broadcast out of California. The ethical, moral and positive message brought by K-LOVE is an asset to the local community. I see the negative effects of other radio stations being a local police officer. I am requesting as a citizen and listener of K-LOVE that you not replace it with an LPFM broadcaster. K-LOVE radio gives citizens a choice to listen to positive music as opposed to stations with emphasis on sex, drugs or cheating. We all know how hard it is to keep marriages together, children away from drugs, and our adolescence out of jail. K-LOVE provides a different influence in the lives of Albuquerque citizens. Please do not take that from us. Thank you for your time and careful consideration in this decision.
